Darlington FC

New Community Sports Village and Education Centre

Client:
Darlington FC

Value:
£22m

Completed:
Ongoing

Services Provided:
Client Project Manager
Cost Manager

Brief Description:

HMP were commissioned to aid the football club with the development of facilities at their current Darlington Arena stadium to add to the client current sports & leisure offer. We are helping to bring the planning process to a close and develop procurement strategy to deliver the new construction of 1st Team Training Facility, Soccer Dome, Hotel, Pub, Nursery & Café.

The Soccer Training Centre site meant close liaison with the football club and its stakeholders in order to develop business cases to build and operate soccer based commercial venture that also served the local community and the requirements of the club.

We are also involved in liaison with potential developers for the mixed use site which we hope to bring to site as soon as possible.
